

Sydney Postgraduate Psychology Conference 2013 Program Outline

Stream A - CLB Room 6

8:30 Registration

9:00 Opening Address (Room 6)

9:30 Session 1

Shiu (Kelvin) Wong	UNSW	Reasoning processes in obsessive-compulsive disorder
Mia Romano	MQ	How does Motivational Interviewing work: A review of the evidence
Melissa Black	UNSW	Attenuating memory distrust in obsessive-compulsive checkers
Wesley Tan	MQ	The Experiences of Victims of Human Trafficking and Service Providers for those victims in Australia and South-East Asia.
Peter Baldwin	UNSW	Psychological and Physiological Dimensions of Decision-Making in Hoarding Disorder
Suraj Samtani	UNSW	What type of repetitive thinking predicts future symptoms of psychopathology?
Veronica Quinn	USYD	Expecting the worst: The effect of expectation on the experience and severity of side effects in first time chemotherapy patients

Stream B - CLB Room 1

Session 1

Alex Russell	USYD	Odour-induced visual synaesthesia and its conceptual basis
Briana Kennedy	UNSW	Emotion sticks out: Categorical distinctiveness does not drive emotion-induced blindness
Emily Orchard-Mills	USYD	Pitch-elevation correspondence influences temporal ventriloquism
Mona Faris	UWS	The perception of Australian English vowels by Egyptian- and Sudanese-Arabic speakers
Alexandra Schmid	USYD	How does the brain represent surface lightness?
Arbab Ahmed	UWS	Assessing the functional significance of the Horizontal Effect.
Scott Mooney	USYD	Natural illumination and material properties in 3D shape perception

Stream C - CLB Room 2

Session 1

Dominic Tran	UNSW	Staying smart while eating dumb: The benefits of training on diet-induced memory deficits
Emily Heath	USYD	Substance P drives the translocation of the delta opioid receptor in the striatum.
Ashleigh Morse	USYD	Delta-opioid receptor translocation in the nucleus accumbens shell during Pavlovian learning: Necessary but not sufficient for specific Pavlovian-instrumental transfer
Jane Franklin	MQ	Extended exposure to caffeine and sucrose results in persistent changes to locomotor behavior, neurobiology and response to acute methamphetamine challenge
Sarah Baracz	MQ	Oxytocin administration in the nucleus accumbens core of the rat reduces methamphetamine reinstatement
Matthew Castino	UNSW	The role of histone acetylation in the extinction and reinstatement of nicotine-seeking behaviour in the rat
Caitlin Cowan	UNSW	Probiotics attenuate the impact of early life stress on fear memory in infant rats

11:00 Morning Tea

11:30 Session 2

Yichelle Zhang	USYD	An empirical examination of the mislabeling of fat as an emotion in sub-clinical eating disorder groups
Nathan Mifsud	UNSW	Prediction and Sensory Suppression in Schizophrenia
Lisa Dawson	USYD	Measuring and defining recovery from anorexia nervosa: A Delphi study
Karoline Prinz	USYD	Cyber Bullying: e-Health Psycho-Education and Cognitive-Behavioural Intervention Program for Children and Adolescent
Lena Oestreich	UNSW	Electrophysiological Investigation of Auditory Verbal Hallucinations in Schizotypy and Schizophrenia
Scott Griffiths	USYD	Stigmatisation of Anorexia Nervosa and Muscle Dysmorphia
Michelle Jiang	UNSW	Attention, memory, and body dissatisfaction.

Session 2

Nhung Nguyen	UWS	Social factors and speech perception: what don't we know?
Jasmine Fardouly	UNSW	The Influence of Facebook on Young Women's Mood and Body Image Concern
Jesse Wynhausen	USYD	Racism begets racism: How racial attitudes moderate moral self-licensing
Farjana Mahbuba	UWS	"Cultural Influences in Making Folk-Religious Identity of Muslim Women: Context Bangladesh"
Tim Schofield	UNSW	Anger is seeing red: the effect of emotions on colour ratings.
Dominic Lees	UWS	Depleted depletion: Non-significant findings from self-control depletion research
Ryan McMullan	UWS	Vertical Space as an Embodied Representation of "Good" and "Bad": An investigation of Conceptual Metaphor in Impression Formation and Social Comparison

Session 2

Valeria Peretokina	UWS	Interaction of Phonology, Morphology, and Prosody in L2 Speech Perception by Chinese Learners of English
Jia Hoong Ong	UWS	Learning Lexical & Musical Pitch: A Distributional Learning Approach
Elizabeth Austin	MQ	The Transmission of Gesture
Sarah Watts	USYD	Exploring the Relationship Between Positive Caregiving Practices and Child Development in Kenya.
Annabel Marsh	USYD	APOLOGY, TRAIT & TRUST: So you're sorry, but are you nice or nasty? Children's understanding of apology, moral character and trust
Sonny Li	UNSW	Effect of Automatic Phonological Activation on Episodic Memory

1:00 Lunch

1:45 Session 3

Llew Mills	USYD	Ignorance is Bliss: Removing Information of Dose-Reductions to Reduce Withdrawals in A Nicotine-Patch-Based Dose-Reduction Regimen
Diana Chan	UNSW	The Effect of Prenatal Exposure to SSRIs on the Development of Anxiety-Related Behaviours
Alice Lo	USYD	Self-Concept Certainty in Adaptive and Maladaptive Perfectionists
Yulisha Byrow	MQ	Attachment Attention and Anxiety
Gemma Easter	USYD	Parenting of Children with Asthma and Anxiety
Jo Dudeney	USYD	Attentional Bias towards threat related stimuli in children with anxiety: A meta-analysis of visual dot-probe research
Kevin O'Sullivan	UNSW	Desistance from Crime and Self-story

Session 3

Jessica Alcorso	MQ	A psychosocial approach to understanding lymphoedema self-management
Jemma Todd	USYD	Exploring attentional biases to pain using the visual cueing task
Soheil Afshar	MQ	Neurological, cognitive and psychological outcomes after liver transplantation in children in Australia
Maddie Fraser	MQ	Health Psychology: Understanding the psychological impact of type-1 diabetes and available treatments for children
Ewelina Swierad	UNSW	Lifestyle related norm discrepancy and its potential implications for health behaviors among multicultural individuals.
James Heathers	USYD	Smartphone Pulse-Rate Variability

Session 3

Eva Battaglini	UNSW	Mode of processing and the formation of intrusive memories: an fMRI study
Jessica Lee	USYD	Intentional and incidental exposure learning: Recognition and discrimination of abstract visual stimuli
Aleksandra Klimova	UNSW	Impact of trauma exposure on integrity of Left Uncinate Fasciculus: A diffusion tensor imaging study of PTSD patients
Janice Kan	UNSW	Stress leaves a lasting mark on the mother: Previous maternal separation leads to the early emergence of adult-like fear behaviour in subsequent infant rat offspring
Stephanie Quail	USYD	Stress is associated with changes in the influence of Pavlovian cues on responding for reward in humans.
Galang Lufityanto	UNSW	Measuring intuition: Adding Emotion Without Awareness Enhances Decision Accuracy
Johanna Bergmann	UNSW	Individual visual working memory capacity is predicted by primary visual cortex anatomy

3:15 Afternoon Tea

3:45 Session 4

Rajna Bogdanovic	MQ	An exploratory study investigating the construct of Positive Mood Enhancement, its associated strategy use and relationship with well-being.
Katie Chung	UNSW	Does Cognitive Reactivity to Sad Mood Increase as the Number of Prior Depressive Episodes Experienced by the Individual Increases?
Ly Huynh	UNSW	Observer Vantage Perspective and Rumination: Understanding their Relationship in Depression
Catherine Gittins	USYD	The development of adolescent self-concept and its relationship to depression
Laurie Monier	UNSW	Learned Helplessness and Autobiographical Memory Specificity
Isabella Choi	USYD	Acceptability of Internet treatment for depression among Chinese- and English-speaking Australians

Session 4

Joanne White	MQ	Neuropsychological tests and determining fitness to drive in individuals with dementia: An updated systematic review
Nadia Menon	UNSW	Unfamiliar face-matching and "within-face" variability.
Alice Towler	UNSW	Does expert knowledge improve face matching performance? Evidence from anatomy and forensic photography students.
Donna Li	UNSW	"I didn't do that": The effect of lying on memory for simple actions
Aaron Veldre	USYD	Parafoveal processing of contextually predictable words: Effects of reader proficiency
Catherine O'Gorman	UWS	Eliciting emotion: Film clips versus written scenarios

Session 4

Fabiola Barba Ponce	MQ	Mexican immigrants' adjustment in Australia
Rachael Brady	UNSW	The Socialisation Experiences of New Employees within Australian Firms
Jenny Lam	UNSW	Employee perceptions of innovation capability: A new Innovation Capability Scale for public sector organisations
Michelle Nernec	UWS	A Critical Investigation of Emotional Literacy
Gareth Brabazon	MQ	Skill Acquisition under Pressure: The Buffering Effect of Psychological Resources
Lisa Kim	USYD	An Exploration of Personality Similarity Between Teachers and Students

5:15 Closing Address and Prizes (Room 6)
